We are an interdenominational Christian group, affiliated to Christians in Science. We organise regular talks and discussions fronted by leading scientists and thinkers, to explore significant scientific, bioethical and technological issues of our day, and see how faith and science work together.

The meetings are open to all those who seek to make sense of this changing world, especially those interested in how scientific advance might impact on religious beliefs, and are not restricted to those with a "science" background. They take place at Lindisfarne House, 4 Barbourne Terrace, Worcester WR1 3JS.

The talks are generally from 8 to 9.30pm, in three sections, with space in between for questions, and finish with coffee and cake, and the opportunity for more informal discussion, or time to catch up with friends.

All are welcome - entry, parking and refreshments are free, although we suggest a donation of £3, to cover expenses.
