ARE OUR WORDS OUR SWORDS?

James Birkett

Tuesday 18th October

Worcester Baptist Church

Sansome Walk, Worcester WR1 1LN

When Social Media exploded into our lives, the way that we communicate changed.

Is it good for everyone to have an equally loud voice in a social environment? And are we becoming worse at communicating, despite us having more tools to do so? Does the quality or quantity of our speech matter more?

I will give the perspective of someone who has grown up in the information age, making a case for and against digital socialisation. I hope that my conclusions, after persuing both digital and physical goals, provides some understanding on the modern struggle of young people.

James Birkett is a Mechatronics Engineer and is the founder of a 3D printing company, Protogen 3D. He's been heavily pursuing self-improvement for five years, learning about business, psychology, relationships and meaning.

Doors open at 7.30pm for coffee and cake.

The event begins at 8pm.

ALL WELCOME

Entry and refreshments free - optional donation - free parking.
